Welcome to the 2023 Glen Holme Sale

This year marks a return to offering Poll Merinos; with the significant difference from the past being that they come with ASBVs and pedigree.

You will note that the Polls will be offered in the second row of pens and will have red headings on the pencards in contrast to the blue headings for the Dohnes.

Whilst we are aiming at balanced sheep in both breeds, there will continue to be differences, enabling greater choice for you, the purchaser.

Unfortunately, it is still not yet possible to compare the Dohne Plus index (from the Dohne Analysis) with the Dual Purpose Plus index (from Merino Select). We have available the percentile bands for both groups for your reference. Obviously, the individual breeding values also cannot be compared to each other between breeds.

On display are rams bred from our last AI and Embryo Transfer program where we infused genetics from wetter districts than Manoora. These young sheep are from Noorla and Harewood proven sires. We also used two of our own link sires in the same program for direct comparison. Naturally joined ewes lambled a few weeks later. These rams that are a little younger will be offered later in the sale.

Thank you for your support; we will continue to support you in return. We offer a classing service for ewe hoggets. Please speak with us if you are interested in this service.

We offer to coordinate transport for delivery of your purchases by arrangement with us prior to the start of the sale. In many cases, we are able to deliver free of charge.

We continue to strive for excellence for the benefit of us all.

Kind Regards,

Allen and Joy Kelly, Lauren and Damien Philp, Ryan and Hayden.

Our rams have undergone careful production measurement, data collection and analysis to provide ASBVs (breeding values).

Progeny at Glen Holme are recorded for Body Weight, Fat and Muscle, Greasy Fleece Weight, Fibre Diameter, CV of fibre diameter and graded for visually assessed traits.

Dohnes are analysed separately to the Poll Merinos – in the Dohne Analysis or Merino Select, as their breed dictates. Unfortunately, whilst the ASBV headings are the same, they cannot be compared between breeds, nor can the indexes be compared.

We aim to provide a wide range of ASBVs in our catalogue. However, please look for any additional information, indexes and breeding values on the Sheep Genetics Website.

Animal health treatments and management

At marking all animals are treated with Eryvac and Glanvac 6 or GlanEry7

All rams are non-mulesed.

Our rams and ewes are vaccinated with Gudair.

At weaning all animals treated with WeanerGuard.

Rams are vaccinated with Tasvax 8.

Rams dipped with Extinosad at shearing.

Scrotal circumference measurements have been taken.

Please note – some rams offered for sale have been utilised by the stud or had semen collected for stud use. Shearing dates may differ from main line.

These rams will have this mentioned on individual pen cards.

Rebate for Outside Agents

3% rebate payable to outside agents present at the sale, having introduced buyers in writing to the vendor at least 24hrs prior to sale.

Insurance

All rams purchased at this sale become the responsibility of the purchaser from the fall of the hammer. We encourage all purchasers to insure their rams against future loss or injury. All rams with pre-arranged delivery or collection at a later date are required to be insured. Please see the Agents' desk.

Quality Assurance

All rams are offered in the belief that they are sound and fertile. In the unlikely event that this is not the case, please discuss your concerns with the vendors as soon as possible.

Delivery

Interstate delivery of purchases may be coordinated through the Agents. Please discuss this if required.

Interstate or Export Purchases

Additional costs and charges associated with interstate or export purchases are to be borne by the purchaser.
